

Fletcher Business Solutions

Specialist Project Support

We offer highly personalised, flexible and customised business support solutions for any business. With many years experience of practical General Management, Financial Management (qualified CIMA), Operational and Commercial Management we can deliver proven knowledge and skills to help you improve your business.

Business Reviews

We can review your business with you to help identify new sales & market opportunities, margin improvements, channel management options, new products & services, process improvements etc.

Anything that helps you improve your business performance on a short term project basis.

Interim Management

Our experience in finance, operations, sales & marketing and general management makes us the ideal choice to offer you support for any discipline when an interim position is needed.

Flexible and tailored to suit your requirements on a full time or part time basis.

Strategic Planning

It is very easy when busy with your day to day business activities to keep putting off a review of where you want your business to be in say 3 to 5 years. For instance:-

Do you want to double your turnover and profit?

Do you want to sell or pass on to family members?

We can offer a simple but effective strategic review process which leads you through the questions you really need to be asking yourself.

Acquisition & Divestment

Do you have an acquisition opportunity or a need to divest part or all of your business?

This process can get difficult when the very detailed aspects of an

agreement are being formulated and emotions are running high.

We can act as a third party 'go-between' and conduct the negotiation on your behalf to help you keep a clear focus on what you want from the transaction.

We can also act on your behalf to make initial approaches to potential targets.

Business Planning & Finance

We can help you set up simple and effective financial planning tools and systems.

We can also offer you support in producing business plans and cash flow forecasts for day to day control purposes and to help with negotiations with your financiers.

Coaching For Growth

The Government backed 'Great Business' scheme offers great value business improvement support, delivered by registered and approved coaches.

Jim is a registered and approved coach.
